--	--	---	--	---

Swift 2 forage sorghum is a great value forage sorghum that provides fast first feed and multiple harvests. Swift 2 offers grazing, hay and silage value, low prussic acid risk, a fine stemmed and leafy plant type, excellent regrowth, and drought tolerance. Swift 2 will lead to outstanding animal performance and provide flexible stand management.

Key Features

- Hybrid Sorghum x Sudan
- Multiple grazings, hay cuts, or hay and silage
- Drought Resistant
- Excellent Regrowth
- Leafy with fine stems
- Early Flowering

Key Uses

Swift 2 is a versatile sorghum that is suitable for sheep, beef, dairy, and for hay/silage systems. Swift 2 is high quality, great value variety that can be adopted into any system that is current growing or looking to grow forage sorghum.

Management

Swift 2 can be very fast to the first feed and provide multiple grazings or cuts. Graze from 60-100cm in height to maximise forage quality, but can be conserved as hay, although with lower feed value.

It will need to be fed with adequate nutrition based on a soil test. We recommend sowing with an N/P based starter fertiliser and regular topdressing after grazings with Nitrogen and some Potassium.

Sowing Rate

Dryland: 8-12kg/ha
Irrigated: 20-25kg/ha

Left: Fine stemmed sorghum (i.e Swift 2) **Right:** Thicker stemmed sorghum
